ALL-COUNTY LETTER NO. 94-55

TO: ALL COUNTY WELFARE DIRECTORS
ALL COUNTY GAIN COORDINATORS
ALL COUNTY NET COORDINATORS
ALL COUNTY SCC COORDINATORS
ALL COUNTY TCC COORDINATORS
ALL COUNTY CAAP COORDINATORS

Reason for this Transmittal

- ☒ State Law Change
- ☐ Federal Law Change
- ☐ Court Order or Settlement Agreement
- ☐ Clarification Requested by One or More Counties
- ☐ Initiated by CDSS

SUBJECT: 1994 REGIONAL MARKET RATE CEILINGS

This letter is to transmit the 1994 Regional Market Rate (RMR) Ceilings for California Child Care Providers. The RMR ceilings are determined by the California Child Care Resource and Referral Network (Network) from the results of a survey of child care providers statewide. These rate ceilings are used by the Greater Avenues for Independence (GAIN) Program including Cal-Learn, the Non-GAIN Education & Training (NET) Program, the Supplemental Child Care (SCC) Program, the California Alternative Assistance Program (CAAP), the Transitional Child Care (TCC) Program, and by various programs under the jurisdiction of the California Department of Education (CDE). The 1994 RMR ceilings will become effective July 1, 1994, and will remain in effect until further notice. The instructions for using this rate ceiling document are contained in Enclosure I. The rate ceilings are contained in Enclosure II.

The RMR ceilings were established from the results of a survey conducted between January and March 1994 of 13,300 child care providers throughout the state. The providers were asked questions about the rates they charge for various types of child care services. Although 13,300 providers were interviewed, we continue to have data fields used by fewer than ten providers. This situation occurs in two instances: 1) when the provider population in a county is small, and 2) when fewer than ten providers in a county use a specific unit to set their rates (hourly, daily, weekly, or monthly). To help alleviate this problem, the Network substitutes a regional rate when it is necessary to achieve a sample size of at least ten providers. By using the data from the larger regional sampling, we are assured of a statistically reliable RMR ceiling. The regions were created to include counties with similar geographic, economic and demographic conditions.

As part of this process, counties were asked about their interest in establishing sub-regional rate ceilings in their county. For the 1994 RMR's, Riverside, Ventura, and Yolo counties requested and were approved to receive sub-regional rates. These rates are located in the back portion of the rate ceiling document. As noted above, in instances where there are less than ten providers in a particular type of care, sub-regional rate ceilings were replaced with county rate ceilings or regional rate ceilings as applicable.

It is important to note that the RMR ceilings represent the maximum each particular program will pay for child care. If a provider charges less than the maximum ceiling rate, counties would pay the rate charged. However, should the actual cost of child care exceed the RMR ceiling, the participant/parent would be responsible for the payment of the difference if he/she chooses to utilize such a child care provider.

The California Department of Social Services, with the assistance of the GAIN Child Care Workgroup, a subcommittee of the County Welfare Director's Association (CWDA), and the CDE agreed to the following revisions to RMR policies:

- 1) We are establishing a new rate ceiling category called Premium Care that includes the following types of care:
 - Non-Traditional Care: Access to evening and weekend care has been limited and when available, usually costs more than care provided during daytime or weekday hours. Families who work evenings and/or weekends have been paying the difference between the rate ceiling and the actual cost of this care. To reduce the instances of such hardships and to encourage employment, we are establishing new policy to allow a 1.41 adjustment factor for non-traditional care. The instructions for determining a Premium Care rate ceiling are located in Enclosure I.
 - Special Needs Care: A child with special needs is a child who is mentally or physically incapable of self-care, as verified by a physician or a licensed or certified psychologist, and requires separate accommodations in order to provide them with basic child care services. Child care facilities sometimes charge a special rate for providing such care to these children. Formerly, the rate ceilings for Special Needs children were provided in the RMR. In this year's RMR, these rate ceilings have been removed and have been included in the Premium Care category. In addition, In-home/Exempt care is now also eligible for the adjustment when care is provided to a Special Needs child by an exempt provider. When a rate ceiling is necessary for a Special Needs child, counties will determine the appropriate rate by following the instructions for Premium Care contained in Enclosure I.
- 2) We have also removed the part-time monthly rate ceilings for In-Home/Exempt Care which were previously designated for use only in the TCC Program. In order to determine the appropriate rate ceiling for this category of care for all programs, counties will multiply the hourly rate by the number of hours of care. This is necessary even when the provider charges on a daily, weekly, or monthly basis. As always, counties will then pay the actual cost of care or the rate ceiling, whichever is less.

All counties will be required to use the 1994 RMR ceilings as of July 1, 1994. Notices of Action (NOAs) need to be completed and sent to impacted participants in a timely manner to notify them of any changes in their child care rate ceilings. Please refer to the appropriate programs' noticing requirements for instructions on how to process NOAs.

If questions or concerns arise regarding these 1994 RMR ceilings, please contact Ms. Jan DeSilva in Child Care Programs at (916) 654-1768.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael C. Genest". The signature is fluid and cursive, with a large loop at the end.

MICHAEL C. GENEST
Deputy Director
Welfare Programs Division

Enclosures

INSTRUCTIONS FOR USING THE
REGIONAL MARKET RATE CEILINGS FOR
CALIFORNIA CHILD CARE PROVIDERS

DEFINITIONS:

- The 1.5 Standard Deviation Above The Mean rate ceilings represent the maximum amount allowable for the payment of child care costs for the Greater Avenues For Independence (GAIN) Program, including the Cal-Learn Program.
- The 75th Percentile rate ceilings represent the maximum amount allowable for the payment of child care costs and for federal financial participation. These rate ceilings are currently used in the Non-GAIN Education & Training (NET) Program, Supplemental Child Care (SCC) Program, California Alternative Assistance Program (CAAP), and Transitional Child Care (TCC) Program.
- Part-time care is:
 - 1) Less than 35 hours per week for the GAIN, Cal-Learn, NET, and SCC programs.
 - 2) 147 hours or less per calendar month for the CAAP and TCC programs.
- Full-time care is
 - 1) 35 hours per week or more for the GAIN, Cal-Learn, NET, and SCC programs.
 - 2) More than 147 hours per calendar month for the CAAP and TCC programs.
- Child Care Centers are licensed facilities other than family day care homes in which care is provided for children in a group setting.
- Family Day Care is care provided by a licensed provider in the provider's own home.
- In-Home/Exempt Care is any child care arrangement that is exempt from child care licensing requirements.

NOTE: The only exception to this rule is exempt-from-licensure child care centers operated on school grounds by school employees for before- and after-school child care. These schools and their

employees are governed and regulated by the California Department of Education and thus need no further regulation.

- Premium Care is child care provided 1) after 6:00 p.m. in the evening until 6:00 a.m. in the morning, 2) during any hours on the weekend, or 3) to a child with Special Needs.
- A child with Special Needs is a child who is mentally or physically incapable of self-care, as verified by a physician or a licensed or certified psychologist, and requires separate accommodations in order to provide them with basic child care services.

NOTE: According to the Americans With Disabilities Act (ADA), child care facilities cannot charge special rates for children for whom reasonable accommodations would permit full integration of the child into their program.

- A period (.) in a rate category means there were less than three providers for a particular type of care in both the county rate survey and the larger regional rate survey. If a child care provider requires payment in such a rate category, the county will pay the actual cost of the child care.

NOTE: Counties should be aware that rate categories with less than three providers (.) are rate categories that are not typically used by child care providers in their county to charge for services. For example, full-time care for a child under two years of age is not typically charged on an hourly basis; full-time care is usually charged by the day, week or month. Part-time care for a child under two years of age is not typically charged on a monthly basis; part-time care is usually charged by the hour, day, or week. Counties should become familiar with the usual methods child care providers charge within their county. If a child care provider requires payment in a manner which has no rate ceiling, counties should attempt to persuade the provider to charge in a manner that is more typical for the type of care provided and which would have a rate ceiling listed.

- Asterisks (*) were inserted into the part-time daily, weekly, and monthly rate categories for In-Home/Exempt care to inform counties to multiply the actual number of hours of care by the hourly rate ceiling to issue the appropriate child care payment.
- The Actual Cost of Care is the amount charged by and/or paid to a child care provider for the following eligible hours and services:
 - 1) Care provided during the hours the participant was working, going to school or attending training; and
 - 2) Care provided during the hours necessary for the transportation time between the child care provider and the work, school, or training site; and
 - 3) In the case of licensed providers, any service, application, or registration fee(s) charged by the child care provider, not exceeding the fee(s) charged to private clients for the same service; and
 - 4) In the case of licensed providers, care provided during any additional hours that are based on the provider's standard billing practice. Refer to the appropriate program's regulations for examples of eligible hours.

INSTRUCTIONS:

The following information is needed to determine the appropriate rate ceiling:

- The program's rate ceiling level (75th percentile or 1.5 standard deviations above the mean);
- The county or sub-region within the county where the child care is provided;
- The type of provider (Child Care Center, Family Day Care, In-Home/Exempt Child Care);
- The number of hours of care per week (full-time or part-time as defined by the program);
- The age of the child; and
- How the provider charges (hourly, daily, weekly or monthly).

- STEP 1: Locate the appropriate page in the RMR ceiling document that corresponds with the program's appropriate rate ceiling level (75th or 1.5) and to the county or sub-region within the county where the child care is provided.
- STEP 2: Locate the appropriate category for the type of care (Child Care Center, Family Day Care Home, or In-Home/Exempt).
- STEP 3: Locate the appropriate category for the age of the child and whether the care was provided full-time or part-time as defined in the program.
- STEP 4: Locate the appropriate ceiling based on the provider's charging method or use only the monthly rate ceilings for CAAP and TCC. In the part-time In-Home/Exempt care categories where no monthly rate ceilings are established, multiply the hours of care by the hourly rate ceiling for all programs.
- STEP 5: If Premium Care (care provided to a Special Needs child or after 6:00 p.m. until 6:00 a.m. or weekends), determine the Premium Care rate ceiling by multiplying the rate ceiling identified in STEP 4 by the 1.41 adjustment factor. The result is the Premium Care Rate Ceiling.
- (Rate Ceiling X 1.41 = Premium Care Rate Ceiling)
- STEP 6: Compare the rate ceiling amount to the actual cost of care. If the rate ceiling is higher than the actual cost, pay the actual cost. If the rate ceiling is lower than the actual cost, only pay up to the ceiling amount.

NOTE: When notified about a change in the child care provider, a change in the hours of care, or when a child turns 2, 6 or 13 years old, the rate ceiling for that child must be reviewed. When a revision is necessary, the change is effective the first of the following month. The only exception to the rule is a child who enters kindergarten at 5 years old and later in the school year turns 6 years old. The continued use of the 2 - 5 years rate ceiling is allowed for the remaining part of that school year. THE PARENT MUST BE NOTIFIED OF ALL CHANGES TO THE RATE CEILING.

EXAMPLES FOR DETERMINING RATE CEILINGS:

1. A Kern County AFDC family consists of a mother, who is participating in a full-time GAIN component, and a 2 year old child, Mary. Mary's mother goes to school for 8 hours a day 5 days a week. After adding transportation time of 2 hours a day, Mary needs care for 10 hours a day. Since 10 hours X 5 days equals 50 hours per week and "35 or more hours per week" is considered full-time care for the GAIN Program, the FT 2 - 5 YRS category would be used. Her family day care provider charges \$90.00 per week. Compare the weekly GAIN (1.5) ceiling for FT 2 - 5 YRS in a Family Day Care (\$83.88) with the actual weekly rate charged (\$90.00). GAIN would pay a maximum of \$83.88 per week. The difference of \$6.12 per week would be the responsibility of the parent.
2. A Sacramento County TCC family consists of a father, who is working full-time, and his 10 year old son, John. John needs 3 hours a day of after-school care for 5 days a week. Since 3 hours X 5 days x 4.33 weeks in a month equals 65 hours per month and "147 hours or less per calendar month" is considered part-time for the TCC Program, the PT 6 + YRS category would be used. His child care center charges \$220.00 per month. Compare the monthly TCC (75th) ceiling for PT 6 + YRS (\$251.00) with the actual monthly rate charged (\$220.00). Since the actual rate charged is less than the 75th ceiling, TCC would pay the entire cost of child care except for the family fee.

EXAMPLES FOR DETERMINING PREMIUM CARE RATE CEILINGS:

1. A Los Angeles County NET family consists of a mother, who is going to school full-time, and her 14 year old disabled son. She takes her son to a licensed center for 8 hours 5 days a week and the center charges her \$500 a month. After adding transportation time of 1 hour a day, care was provided for 45 hours a week (8 hours + 1 hour X 5 days a week = 45 hours a week) which is considered full-time for the NET Program. The standard rate ceiling for full-time care of a 6+ YRS child in a child care center using the monthly rate is \$380. However, since the son is a Special Needs child, the county must determine the appropriate Premium Care Rate Ceiling before issuing the NET payment. The \$380 standard rate ceiling is multiplied by the 1.41 adjustment factor and the result is the Premium Care Rate Ceiling of \$535.80 ($\$380 \times 1.41 = \535.80). Since the actual rate charged (\$500) is less than the \$535.80 Premium Care Rate Ceiling, NET would pay the entire cost of care (\$500).

2. A Fresno County SCC family consists of a mother, who works from 4:30 p.m. until 12:30 a.m. 3 days a week, and her 4 year old daughter. Her commute requires her to drop her daughter off at the provider's home at 4:00 p.m. in the afternoon and pick up her daughter at 1:00 a.m. The mother works 6 standard hours a week (2 hours a day X 3 days = 6 hours) and 21 premium hours a week (7 hours a day X 3 days = 21 hours). Each of those figures are considered part-time care in the SCC Program. For the month, she worked 24 standard hours (6 hours a week X 4 weeks = 24 hours) and 84 premium hours (21 hours a week X 4 weeks = 84 hours). Her in-home/exempt provider charges \$1.80 an hour for the hours between 4:00 p.m. - 6:00 p.m. for a monthly cost of \$43.20 and \$2.00 an hour for the hours between 6:00 p.m. - 1:00 a.m. for a monthly cost of \$168. The family's total monthly child care costs are \$211.20. The standard rate ceiling for part-time care of a 2-5 YRS child in in-home/exempt care is \$1.82 an hour. The Premium Care rate ceiling is \$2.57 ($\1.82×1.41) an hour. The maximum allowed using the rate ceiling for the standard hours of care is \$43.68 ($\$1.82 \times 24 \text{ hours} = \43.68) which is more than the \$43.20 actual cost of care. Therefore, the \$43.20 actual cost of care is eligible for payment. The maximum allowed using the rate ceiling for the premium hours is \$215.88 ($\$2.57 \times 84 \text{ hours} = \215.88) which is more than the \$168 actual cost of care. Therefore, the \$168 actual cost of care is also eligible for payment. The family is eligible to receive payment for the entire monthly cost of care of \$211.20 ($\$43.20 + 168 = \211.20). The family receives the maximum part-time dependent care disregard of \$174 in their AFDC computation and an SCC payment for the remaining \$37.20 or \$37 rounded down according to MPP Section 44-505.2.
3. An El Dorado County TCC family consists of a dad, who works 5 days a week, and his 9 year old son. His work hours fluctuate from day to day but he always works between the hours of 3:00 p.m. and 3:00 a.m. for a total of 40 hours every week. Care is provided for a total of 194.5 hours a month (40 work hours + 5 transportation hours X 4.33 weeks in a month = 194.5 hours). For one month the dad worked 40 standard hours and 154.5 premium hours. In the TCC Program, 40 hours are considered part-time and 154.5 hours are considered full-time. The county would establish a rate ceiling for each separately. The standard monthly rate ceiling for a PT 6+ YRS. in a licensed center is \$240. The standard monthly rate ceiling for a FT 6+ YRS. in a licensed center is \$375. The Premium Care rate is \$528.75 ($\$375 \times 1.41 = \528.75). The child care provider, a 24-hour child care center, charges a flat monthly rate of \$450 to all parents for care over 120 hours in the month.

Since the provider's standard billing practice is to charge a flat monthly rate, the county would then add together both rate ceilings and the total would be the rate ceiling ($\$240 + 528.75 = \768.75). Since the \$450 actual cost of care is less than the \$768.75 rate ceiling, the county would pay the entire child care costs of \$450 less the family fee.

CLAIMING REQUIREMENTS:

Federal financial participation is available only up to the 75th percentile of the market rates. In the NET, SCC, CAAP and TCC programs, the entire payment amount would be claimed as a federally-eligible child care cost. However, in the GAIN Program, including Cal-Learn, only the child care costs up to the 75th percentile are eligible for federal reimbursement. Child care costs above the 75th percentile and up to the 1.5 standard deviations above the mean, must be claimed separately.

Detailed claiming instructions for child care expenditures in the GAIN Program are located in County Fiscal Letters (CFLs) No. 90/91-52, No. 90/91-62, No. 90/91-64, and No. 90/91-65.

For Example #1 on Page 4, the following is an example of how these costs would be claimed:

- o The difference between the 1.5 weekly ceiling (\$85.84) and the 75th percentile weekly ceiling (\$75.00) would be calculated ($\$83.88 - 75.00 = \8.88). The \$75.00 would be claimed as a federally-eligible child care cost; the \$8.88 difference would be claimed as a non-Federal child care cost.
